

DRIVE ALIVE RICHMOND

As an attorney, local business owner, and a father, Geoff McDonald is very concerned about the problem of distracted driving by teen drivers in Richmond and across Virginia.

This is why Geoff McDonald & Associates created Drive Alive Richmond – a campaign that reflects our firm's commitment to preventing young drivers and others from texting or talking on cell phones when they are behind the wheel.

We are conducting a survey of Richmond teenagers to gain insight into their attitudes towards distracted driving. We will publish the results of the survey in the hopes of furthering this important conversation.

We need your help. Please share the survey with as many students as possible. To help make it a little more fun, we are offering the following prizes.

\$500 for the school's PTA
with the most submissions.

and

An iPad Mini for a
lucky student

Take Our Survey and Help End Distracted Driving!
